Introductory Letter to Residents

The purpose of this letter is to introduce myself as the interim City of Arlington Deputy City Manager responsible for handling the Stormwater Utility Capital Program. I'm replacing Fiona Allen.

In order to facilitate communication, I am providing you with my contact information. Please feel free to contact me to discuss any concerns or issues.

Next Tuesday, City Council will consider the debt issuance and proposed purchase of properties in the watershed. If Council approves the proposal, bond sales could be completed by the end of April. Property that has been identified for purchase will be acquired through volunteer acquisition. No eminent domain proceedings are planned.

I've attached my contact information below. Please do not hesitate to call me with any questions you may have about the Stormwater Utility Capital Program. I will be in touch again following Tuesday's Council meeting.

Sincerely

Bob Byrd
Interim Deputy City Manager
Economic Development/Capital Investment
